

Puzzled!!

When do you get puzzled?

We get puzzled in the morning

We get puzzled in the evening

We get puzzled at night

We will always get puzzled at some time

We can't stop it

Being puzzled makes life easier

When we get puzzled

We learn to solve them

We learn to get through them

We learn to puzzle others

So others can learn too

Being puzzled is hard and frustrating

Being puzzled is a learning and teaching process

So being puzzled is hard and hard as people say it is.
